**Zeppelin Carry Machinery to Turkey.**  
German Zeppelins are said to have been employed to relieve the Turkish shell shortage by one of the most novel schemes of the war.  
One hundred tons of fine machinery used in the manufacture of shells are reported to have been carried from the Austrian frontier across Servia and Bulgaria to Turkey. The Zeppelins traveled by night to escape detection by the Bulgarian border patrols and protests against violation of Bulgarian territory. Each of the dirigibles carried from three to four tons of machinery for the Turkish ammunition works.  
It reports are true a dozen of Count Zeppelin's largest dirigibles were used on the 280-mile flight from the Austrian to the Turkish border.

## Strong Evidence

In the Statement of this Potosi Man

Backache is often kidney ache; a common warning of serious kidney ills.  
"A Stitch in Time Saves Nine."  
Don't delay—use Doan's Kidney Pills.  
Profit by Mr. Livingston's experience.  
M. L. Livingston, traveling salesman, Main St., Potosi, says: "Some time ago my back was very lame and the kidney secretions were too frequent in passage. I used Doan's Kidney Pills as directed and they soon relieved me."  
Price 50c, at all dealers. Don't simply ask for kidney remedy, get Doan's Kidney Pills, the same that Mr. Livingston had. Foster-Milburn Co., Buffalo, N. Y.

**Pats Extra in Japan.**  
In order to prevent the wanton issue of extra editions of newspapers, the metropolitan police of Tokyo, Japan, have issued instructions to the newspaper offices which include a warning that the authorities are prepared to take stringent steps against those which issue special editions without any real news of special interest. Among the offenses which are to be prosecuted is one which concerns the newboys. They are required to call out the names of the papers whose extra editions they are selling; if they fail to do so they are to be punished. Publishers and all those concerned will be prosecuted for issuing any news which has once been published before, as people are being cheated in that way. Those who are responsible for such are to be punished for fraud. Fancy these official terrors operating in New York or Chicago, or even in Philadelphia or Boston!

The Potosi Commercial Club is endeavoring to make the Farmers' Day meeting in Potosi next Monday, Nov. 1st, a success, and all who are interested in farming or promotion of the agricultural progress of the community in any way, should lend their presence at least on this occasion. ## Valuable Relics To Be Well Cared For.

Mrs. Caroline Higginbotham, widow of Judge Thomas Higginbotham, has erected on her home farm in Washington County, a very substantial concrete block building, with slate roof, in which to store and preserve the relics, specimens and antiquities collected by Judge Higginbotham during his lifetime. The building is roomy and very substantial and will last for all time to come.  
Judge Higginbotham devoted much time and spent considerable money in making this collection, which is one of the finest in the state and consists of ancient guns and other weapons, Indian relics, petrified footprints of men and animals of long ago, curios from foreign lands, etc. Few museums can boast of better. We commend Mrs. Higginbotham for caring for the future of these rarities, which are of great interest now and will be of far greater interest to future generations.  
Anyone wishing to view this collection is given cordial invitation by Mrs. Higginbotham to stop at the farm and see same. DeSoto Press.

**Conscience Prodded Him For Six Years.**  
About six years ago, when Judge Messenger was employed in the St. Joe Lead Co. mill, in going up the stairs to the upper part of the building, he dropped 75 cents out of his pocket, but in a few minutes discovered his loss and returned to the lower floor and began a search for the lost money, but to no avail. On last Wednesday a very honest man accosted the Judge and gave him the 75 cents, saying that he could not bear to keep the money, as his conscience had been very uneasy for six years, and since Mr. Messenger was soon to depart from Bonne Terre, his conscience bade him return the 75 cents to its owner.—Bonne Terre News.

## It Is Your Eyes—Not Your Head.

Of all organs of the body, the eyes are the most delicate and complicated, and at the same time, the least understood. None but an expert should be allowed to examine them, much less fit glasses for the vision. If you suspect that you have defective vision, or if you have headaches that you think come from the eyes, it would be well to have Drs. Loper & Loper, the well-known and skilled optometrists, examine your eyes. If you do not need glasses, they will tell you frankly. If medical treatment is required, they will advise you further.

**This Was Some Holiday.**  
When William Showers of Sunbury, Pa., laid off from work on Oct. 23 for the first time in ten years and started for a holiday at the Bloomsburg fair, he was trailed by the jinx. He arose before daylight in order to catch the first train and make his full day's pleasure. Groping in the dark he fell downstairs, suffering bruises of the face; then he started for the cellar and bumped his head against a bucket that hung on a nail, suffering a deep gash. Coming upstairs he stepped on a piece of coal and fell to the bottom, arising with a sprained wrist. He got to the train in safety, but fell heavily as he was about to board it and wrenched his right side. At the Bloomsburg depot he was knocked down by a jitney, and while trying to get inside the gates was thrown against a post and suffered lacerations. Inside a girl ran a "stickler" stick in his eye, nearly blinding him.

The Time is Coming  
O, mother, please, mother, come home with me now; the afternoon slipping by fast; you said you were coming right home from the falls as soon as your ballet was over.
